To Whom It May Concern:

It is with enthusiasm and respect that I recommend Cody Builders Supply for any structural steel needs on your upcoming projects.

I worked directly with Cody Builders Supply on DWU contract no. 16-025 Biological Filtration Optimization Improvements in the following phases: submittal coordination, billings, QA/QC, change orders, and RFIs. In my work experience Cody Builders Supply displayed a high level of professionalism, punctual clarification when requested, and quality which is rare among structural steel suppliers these days.

From my experience while working with Cody Builders Supply I would say their strongest quality is assuring the customer's scheduling goals are met. Additionally, Cody Builders Supply displayed excellent communication skills greatly helped keeping schedule for the project mentioned herein.

In summary, I believe they would do great on any other projects as they always put the customer first.

Sincerely,
