Re: Palo Alto Sludge Dewatering and Loadout Facility
Subject: Letter of Recommendation - Cody Builders Supply

To whom it may concern,

Overaa Construction contracted with Cody Builders Supply on the Sludge Dewatering & Loadout Facility project in Palo Alto, CA. Cody Builders Supply provided the materials and detailing services for the following scopes of work; structural steel, elevated platforms, grating and aluminum handrail.

The team at Cody Builders Supply was instrumental in the success of executing their scope of work and quickly helped resolve numerous installation conflicts and owner requested changes. Without hesitation, their shop worked overtime to meet the project's tight schedule.

Overaa Construction has worked with Cody Builders Supply on numerous projects and we will continue to partner with them in the future. This letter is to serve as Overaa Construction's recommendation of Cody Builders Supply.

Very truly yours,
C. OVERAA & CO.
