Re: Letter of Recommendation – Stewart Creek WWTP (The Colony, TX)

Dear Mr. Neikirk,

I would like to thank you and Cody Builders Supply for the great work done in supplying the structural and miscellaneous metals for Stewart Creek WWTP. You were very responsive to the demands of the project, which resulted in the delivery of the material well ahead of the schedule.

You were always available to work through issues when they arose in the field and provide intelligent solution to keep the project moving forward.

Your quality standards and craftsmanship were particularly noteworthy on the stainless steel built up beams at the Post Aeration/Reuse Wet Well.

I would gladly recommend Cody Builders Supply for future projects.

Thanks,

Paul Hejl
Project Manager
